## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-34 are rejected under 35 U.S.C. 103(a) as being unpatentable over McKay 5,813,914 in view of matters old and well known in the art.

As to claims 1-3, 9-11, 17-19, 25-27, 33 and 34, Mackay shows a main game machine section 4 and a top box 52 having a hollow interior 44 with a rotatably hinged door with display panel 46. The shape of the top box and the door particularly are considered an obvious matter of design choice. In re Dailey, 357 F.2d 669, 149 USPQ 47 (CCPA 1966) (The court held that the configuration of the claimed disposable plastic nursing container was a matter of choice which a person of ordinary skill in the art would have found obvious absent persuasive evidence that the particular configuration of the claimed container was significant.). In the instant case, nothing of record shows the non-rectangular shape to be critical. As to claims 4, 5, 12, 13, 20, 21, 28 and 29, providing seals on doors to make them liquid proof is considered old and well known. To have place a seal on the door of MaKay would have been obvious in order to prevent liquids from passing through the door into the machine. Lip 48 is considered to meet the limitations of claims 6, 14, 22 and 30. As to claims 7, 8, 15, 16, 23, 24, 31 and 32 the use of lock on access door is considered old in well known in order to prevent unauthorized access such as in the machine of MaKay.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure is listed in the attached PTO-892.
